

UZAIR AKRAM

Frontend Engineer

Lahore, Punjab, Pakistan | +92 (305) 9574 041 | akramuzair68@gmail.com

<https://uzair-akram.vercel.app/> | <https://www.linkedin.com/in/uzair-akram-full-stack-developer/>

PROFESSIONAL SUMMARY

Frontend Engineer with 4+ years of experience building enterprise-grade UI systems, dashboards, and high-performance web applications using React.js, TypeScript, Next.js, JavaScript (ES6+), Redux Toolkit, CSS3, Bootstrap, and Webflow. Skilled in reusable component architecture, state management, REST API integration, secure authentication and role-based access, responsive design, accessibility, and performance optimization. Experienced collaborating with design, QA, engineering, and delivery teams in Agile and distributed environments. Full-stack and cloud-data exposure with Node.js, Express.js, MongoDB, PostgreSQL, and Azure Cosmos DB.

SELECTED ACHIEVEMENTS

- Built and supported reusable UI systems, dashboards, and API-driven interfaces for production business applications.
- Delivered a full-stack POS product platform with inventory and sales workflows, secure authentication, role-based access, and third-party APIs.
- Improved performance and delivery quality through lazy loading, rendering optimizations, Core Web Vitals, accessibility, and cross-browser testing.
- Collaborated across distributed teams in the USA, Australia, and Pakistan with designers, developers, QA, clients, and project managers.

SKILLS

Frontend: React.js, Webflow, TypeScript, jQuery, Next.js, JavaScript (ES6+), Redux Toolkit, CSS3, HTML5, Bootstrap

UI & Architecture: UI Engineering, Responsive Design, Reusable Component Systems, Design Systems, Component-Based Architecture, State Management

Backend: Node.js, Express.js, REST APIs, Authentication, Role-Based Authorization

Cloud & Data: Azure Cosmos DB, MongoDB, PostgreSQL, MySQL

Delivery & Quality: Agile Delivery, Core Web Vitals, QA Collaboration, Technical SEO/AEO, Issue Resolution, Performance Optimization, Accessibility

Tools: Git, GitHub, Postman, VS Code, Figma, OpenAI/ChatGPT, Claude AI, MCP, Gemini

Soft Skills: Problem Solving, Time Management, Communication, Leadership, Ownership, Adaptability, Team Collaboration, Stakeholder Collaboration

PROFESSIONAL EXPERIENCE

Ignite Visibility (*Remote, USA | October 2025 - Present*)

Frontend Engineer II (Webflow & React)

- Build enterprise-grade websites and reusable UI systems using Webflow, React.js, and Next.js.
- Translate complex Figma designs into responsive, pixel-perfect, accessible, and maintainable interfaces.
- Develop scalable CMS architectures, reusable component libraries, style guides, and design foundations.
- Integrate custom JavaScript interactions, animations, REST APIs, and API-driven functionality.
- Optimize performance, Core Web Vitals, accessibility, technical SEO, and cross-device quality.
- Collaborate with designers, developers, QA, SEO specialists, and project managers to resolve issues and meet Agile sprint milestones.
- Use Claude AI and MCP-based workflows to streamline CMS operations and improve implementation efficiency.

HazelSoft (*Lahore, Punjab, Pakistan | May 2023 - October 2025*)

Associate Software Engineer

- Built responsive business applications and dashboards using React.js, TypeScript, JavaScript, Redux Toolkit, and Bootstrap.

- Developed clean, reusable frontend modules and REST APIs using Node.js and Express.js.
- Integrated MongoDB and cloud-based Azure Cosmos DB with frontend and backend services.
- Implemented secure authentication and role-based authorization for business application workflows.
- Improved rendering and dashboard performance through code optimization, lazy loading, and efficient state updates.
- Participated in sprint planning, design reviews, technical documentation, QA validation, and release-readiness activities.

Brainstack (Australia | March 2022 - April 2023)

Webflow Designer & Developer

- Converted Figma designs into responsive, production-ready Webflow websites.
- Built reusable sections and custom interactions using HTML, CSS, and JavaScript.
- Optimized websites for accessibility, SEO, page speed, and cross-browser compatibility.
- Worked directly with international stakeholders across multiple time zones and delivered projects on schedule.

PROJECTS

CollectPOS (Game Store POS System | HazelSoft)

React.js, Bootstrap, Node.js, Express.js, REST APIs, Azure Cosmos DB, Redux Toolkit

- Built a full-stack business application supporting inventory, sales, and dashboard workflows.
- Developed reusable React UI modules and Redux-based state management for operational screens.
- Implemented authentication, role-based authorization, and protected application workflows.
- Integrated PriceCharting and Pokemon APIs and improved dashboard performance through lazy loading.

Perspire Sauna Studio (Lead Webflow Developer | Ignite Visibility)

Webflow, JavaScript, GSAP, REST API Integration, Reusable Components, CMS Architecture

- Led implementation of the complete website and reusable component system in Webflow.
- Built CMS collections, responsive layouts, and interactive GSAP animations.
- Delivered pixel-perfect pages across devices and improved SEO and AEO performance.

Broken Yolk Cafe (Support Webflow Developer | Ignite Visibility)

Webflow, JavaScript, GSAP, REST API Integration, Reusable Components, CMS Architecture

- Built reusable components and responsive website pages in Webflow.
- Added custom JavaScript interactions, animations, and API-connected functionality.
- Supported consistent, pixel-perfect implementation across devices.

EDUCATION

Bachelor of Science in Software Engineering (Session 2018 - 2022)

COMSATS University Islamabad, Sahiwal Campus | Sahiwal, Pakistan
